August 29, 2019

To whom it may concern,

This letter is to highly recommend the services of Tap 50:50.

We switched to Tap 50:50 from a different service provider for our 2019 festival and were completely satisfied with our experience, for a number of reasons. First, Sean and I had many phone conversations and exchanged a number of emails as I explored the merits of this Saskatchewan based company. Sean was prompt with email replies, and patiently responded to each of my questions with pertinent detail and supportive documentation. He worked with me on a number of logistics and was very reassuring.

During the festival, Sean and Chris O'Hagan were both available for consultation and support. They provided an excellent training session for our volunteers, helped us figure out any technical issues and were pleasant and professional throughout.

There were no glitches with equipment, and their support allowed our volunteers to be stress-free and achieve our fundraising targets. We will be working with Tap 50:50 for our next festival, without a doubt!

Sincerely,

Ingrid Mosker  
Resource Development Coordinator
